

Histone H3 Rabbit Polyclonal Antibody

Catalog	TDY236C	TDY236F
Quantity	50 μ L	100 μ L

Tel: 010-82908854
Free: 400-0620-621
Web: www.tdybio.com

For research use only.

Applications	Species Cross-Reactivity	Molecular Weight	Isotype
WB, IHC	H	~15-17KD	IgG

Storage Buffer & Condition: PBS, pH 7.4, containing 0.02% **sodium azide** as Preservative and 50% Glycerol.
Store at **-20°C**. **Do not aliquot the antibody.**

Recommended dilutions: WB: 1:500-2,000 IHC: 1:500-1,000

Optimal dilutions should be determined by the end user.

Specificity: The Histone H3 Rabbit Polyclonal Antibody can detect endogenous Histone H3 protein.

Alternative Names: H3 histone antibody, HIST1H3A antibody, Histone cluster 1, H3a antibody

Background: Histone H3 is one of the five main histone proteins involved in the structure of chromatin in eukaryotic cells. Core component of nucleosome. Nucleosomes wrap and compact DNA into chromatin, limiting DNA accessibility to the cellular machineries which require DNA as a template. Histones thereby play a central role in transcription regulation, DNA repair, DNA replication and chromosomal stability.

Western blot analysis of HeLa with TDY236 diluted at 1:2,000.

Immunohistochemical analysis of paraffin-embedded Human Colon using Histone H3 (TDY236) Rabbit pAb diluted at 1:500.
